

EmergencyCare's mission is to save lives and positively impact health, well-being and safety in the communities we serve.

EmergencyCare is hiring Full-time and Part-time Paramedics

Paramedics provides basic and advanced pre-hospital emergency care to the sick and injured and transports emergency and non-emergency patients safely and efficiently to appropriate medical facilities. The paramedic evaluates the patient and relays pertinent information to the appropriate medical facilities and may be required to implement appropriate medical intervention from medical command physician orders.

The paramedic works closely with the EMT and other paramedics in providing effective and efficient patient care in accordance with established protocols and by performing the following duties.

Paramedics assists with the supervision, training and direction of new paramedics, EMT's, EMS students and other outside agency personnel as directed.

The Paramedic is fully responsible for all actions as a certified Emergency Medical Technician Paramedic and is accountable for the quality of emergency and non-emergency medical care delivered. In delivering pre-hospital emergency care, the Paramedic performs all techniques of basic and advanced life support, provides specified field treatment for medical emergencies, and transports patients to the appropriate medical facility. This includes ambulance, wheelchair and medical van.

Successful applicant will conduct patient assessments to assess the nature and extent of illness or injury to establish and prioritize medical procedures to be followed, or need for additional assistance, and provides basic life support to all patients, adhering to established protocols and procedures.

Must maintains up to date knowledge and clinical skills on treatment techniques, protocol changes, and application of new drugs, material, and equipment and attends continuing education on a regular basis.
